

Aurea Messaging Solutions Enterprise Edition

Millions of users across more than 1000 companies depend on Aurea Messaging Solutions (AMS) to provide business email continuity, security and archival, whether in the cloud or on-premise.

Now, delivered as AMS Enterprise Edition, the entire suite of industry leading messaging solutions are available in one powerful subscription.

Cloud-based capabilities for email continuity and security

With our new AMS Enterprise Edition, you'll have unlimited access to all of the modules Aurea Messaging Solutions – formerly MessageOne – has to offer in one simple subscription.

The entire Aurea Messaging Solutions suite is delivered in the cloud, enabling rapid deployment, fast ability to scale, and with no upfront hardware or software costs. AMS Enterprise Edition simplifies IT management while protecting, securing and mobilizing day-to-day email operations.

AMS ENTERPRISE EDITION MODULES INCLUDE:

Email Continuity: Seamless business continuity with reliable, secure access to email instantly in an outage. Whether the outage is planned or unplanned, AMS Email Continuity enables users to continue working without interruption. You can send and receive email through mobile devices, web browsers, or Microsoft Outlook without disruption — and, it can be activated in less than 60 seconds. Users have uninterrupted access to recent and incoming email, contacts, and calendar entries.

Email Archival: Scalable email retention meets powerful search and discovery with our cloud-based, continuous email archival service. Whether you rely on email in the cloud – like Office 365 or G Suite – or an on-premises Exchange environment, AMS Email Archival ensures that email and attachments are available, accessible, and easily searched and discovered when needed. Email Archival is designed to provide comprehensive support without creating a storage or performance burden on your infrastructure. It also provides endlessly flexible retention criteria to ensure policies can be as granular as you need, including legal hold, long-term retention, and purge protection capabilities.

Email Security: Robust email protection from security threats that can wreak havoc on personnel productivity, and put your infrastructure at risk. With AMS Email Security, you can eliminate the risk of inbound and outbound spam and viruses. Delivering the most effective security available, AMS Email Security includes 100% protection from email viruses, 99% spam capture, and 100% availability.
